

Scam Alert

12/8/2015 – There have been reports that people are calling county water customers saying that the customer's water bill is delinquent and unless they go to WalMart and wire money to a specified party the water service will be shut off immediately. If you get one of these calls try to capture the caller's ID from your phone and then call the Muskingum County Sherriff at 740-452-3637.

Please note that if Muskingum County Utilities does call a customer with a delinquent account, all business will be conducted at the Utilities Office. Customers with delinquent accounts are normally contacted by mail. If at any time a customer has a question about their account, please stop by the office at 375 Richards Road or call the office at 740-453-0678 during regular business hours.
